Prescription charges¹

Where JOBST Elvarex Plus garments are prescribed including specifically prescribed additional options, the dispenser must ensure that full details including order codes are clearly endorsed on the FP10. The additional options for the base garments do not attract any additional prescription charges. One prescription charge is payable where one or more of the same base garment is supplied. More than one prescription charge is payable if different base garments (including different compression class or colour of the same garment type) are ordered.
