

Treat lymphoedema right

5 WAYS TO TACKLE COMPRESSION DISCOMFORT

FIND A MATCH FOR YOUR PATIENTS' NEEDS

At JOBST, we provide compression solutions tailored to each patient's unique body. With your support as a Healthcare Professional, we help patients defy lymphoedema and live confidently.

Feels restricted and/or hot and sweaty by their compression garment

JOBST® Confidence with Contour Fit technology can help your patients live an active life, from young to old. Unique moisture management keeps patients cool and comfortable to support compliance.

Struggles with donning and/or has sensitive skin

JOBST® Elvarex® Soft is designed for easier donning and produced with soft yarns for patients with dry, sensitive, or fragile skin.

Garment doesn't provide strong containment

JOBST® Elvarex® provides strong containment, offering reliable and effective management for more severe lymphoedema.

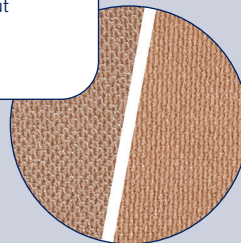

Garment causes discomfort around joints

Our Functional Zones are designed to enhance mobility and reduce wrinkles, for greater comfort around joint areas.

Garment slides or silicone bands cause discomfort

JOBST's SoftFit top band is designed to keep garments securely in place without uncomfortable constriction and is available in knee-high options.

MOISTURE MANAGEMENT

92%

of patients agreed JOBST Confidence keeps skin dry.*

GENERAL WEARING COMFORT

84%

of patients evaluated the comfort of JOBST Confidence as good/very good.*
